CYBERSECURITY

Maintech delivers enterprise-grade cybersecurity solutions tailored for mid-market businesses.

Our services encompass advanced threat detection, 24/7 monitoring, and rapid response capabilities, ensuring robust protection against evolving cyber threats without the complexity and cost of building an internal security operation.

Protect & Detect

Respond & Recover

Optimize & Evolve

MAINTECH

Accessible Enterprise Security

Building Your Security Foundation.

Security Operations Center

24/7 monitoring and incident response with Microsoft Defender and Sentinel for real-time threat detection and continuous security.

Endpoint Protection

Comprehensive device security with advanced threat protection, automated patches, and policy enforcement to guard against malware and ransomware.

Identity & Access Management

Secure authentication, multi-factor access, and continuous monitoring to prevent unauthorized access and protect resources.

Cloud Security

Protect Microsoft 365 and cloud environments with advanced controls, including email protection and app security, ensuring compliance and security.

Security Awareness Training

Regular training and simulated phishing campaigns to cultivate a security-conscious workforce actively defending against threats.

Rapid Response

Immediate containment and remediation of security incidents through our experienced SOC teams.

Why Maintech?

Choose Maintech for tailored cybersecurity with 24/7 monitoring, advanced threat detection, and proactive protection to keep your business secure and compliant.

MAINTECH

Keep your systems and users running at their best with Maintech.
